FULL TIME Maintenance Technician Position – Waycross, Georgia

ESG Operations Inc. is currently seeking a candidate for a full time Maintenance Technician for our Waycross Georgia Water and Wastewater Facilities.

This position is a full time, permanent position which will assist the Maintenance Manager. The successful candidate should have some electrical, mechanical and pump maintenance experience. Any experience with PLC operation, SCADA functions and instrumentation is a plus. Any Water or Wastewater Certification, or familiarity with municipal water systems is helpful, but not required.

This position includes, but is not limited to, inspection and troubleshooting of collection system pumping stations, general maintenance and repairs of equipment related to Water and Wastewater plants, process control and chemical feed equipment and other duties assigned by Maintenance Manager.

Some on-call weekend work will be required. This is an hourly position, and pay rate will be commensurate with experience. This is a great opportunity for the right candidate to advance. Individuals who possess strong work ethic, good computer skills, related maintenance skills and leadership qualities will be considered regardless of experience.

Contact: Please forward resume or letter of interest to: Jamie Thornton at: jthornton@esginc.net and/or phone 912-287-2940.
