Wednesday Dec 12, 2018	Barnesville Civic Center 685 Forsyth Street Barnesville, GA 30204
Thursday Dec 13, 2018	Covington / Newton County Cornish Creek WTP 11905 Alcovy Road Covington, GA 30014

### Course Topics

#### **Understanding Chlorination:**

What makes chlorine such a good disinfectant, and why it is used so extensively? We delve into the history and progression of the most important chemical used in the water industry today. Learn how it works and how to make it work better based upon your individual needs. **Also covered will include important safety aspects when dealing with chlorine in any form.**

#### **De – Chlorination:**

Overview of different chemicals and/or means used to de-chlorinate water and wastewater. It includes when and where you should use which type of chemical and the safety and environmental issues that need to be addressed. We will also discuss the need and methods to monitor the efficiency of the de-chlorination

#### **Alternative Disinfection – Chemicals and Processes:**

Are disinfection byproducts causing you grief, or is chlorine just not meeting your needs? Check out what other chemicals or processes may suit your system better. We will cover UV, ozone and other options available today.

**Course Starts at 8:30 A.M. – Must Pre-Register**

**Limit 4 Attendees Per System**
