

**Update: The GRWA Spring Conference is still scheduled for May 12-14, 2020.**

However, an **alternative** date of **August 4-6, 2020** has been secured **should** the conference need to be moved to a later date. We will continue to monitor developments and update any changes to the current schedule. If a change becomes necessary, the current registrations will be changed to the new dates. The hotels are aware of this potential date change. If it becomes necessary to change dates, you will need to contact the hotel or place that you have made lodging accommodations to transfer your individual accommodation to the new date. **Again, no changes have been made as of now**, but we are prepared to if the situation warrants. GRWA is committed to providing the water and wastewater professionals with the training opportunities afforded by the conference, but the health and safety is foremost. We will continue to update you on the dates and status as we monitor events and recommendations by the CDC, as well as our State and Federal Leaders.
