

Barrow County BOC Water Quality & Compliance Supervisor

SALARY	\$35.83 - \$57.33 Hourly \$74,525.79 - \$119,241.26 Annually	LOCATION	Barrow County, GA
JOB TYPE	Full Time	JOB NUMBER	00389
DEPARTMENT	Department of Water Resources	OPENING DATE	07/28/2026

The Water Quality and Compliance Supervisor is a mid-level leadership role responsible for ensuring the County's water and wastewater systems strictly adhere to federal (EPA) and state (Georgia EPD) regulations. A critical component of this role involves overseeing the utility impacts of new **development and construction projects**, ensuring that all new infrastructure aligns with County service delivery strategies and long-term asset management plans.

1. Regulatory Compliance & Quality Control

- **Monitoring & Reporting:** Supervise the collection and analysis of water and wastewater samples to ensure compliance with the **Safe Drinking Water Act** and **Clean Water Act**.
- **Permit Management:** Oversee Fats, Oils, and Grease (FOG) programs, including inspections and enforcement actions for commercial users.
- **Documentation:** Prepare and submit accurate regulatory reports, such as the annual **Consumer Confidence Report (CCR)**, to state and federal agencies.

2. Development & Construction Oversight

- **Plan Review:** Evaluate civil and architectural drawings for proposed developments to ensure water and sewer infrastructure meets County standards.
- **Project Coordination:** Coordinate with planning and engineering stakeholders to assess the impact of new construction on existing utility capacity.
- **Field Inspections:** Conduct site evaluations and final inspections for **Capital Improvement Program (CIP)** projects and new residential/commercial water and sewer taps.
- **Asset Management:** Update the County's infrastructure inventory and condition assessments as new projects are completed and integrated into the system.

3. Team Leadership & Operations

- **Staff Supervision:** Manage a team of technicians and inspectors, providing training on safety protocols, work methods, and technical standards.
- **Emergency Response:** Lead the department's response to water quality emergencies, spills, or system failures, coordinating with emergency and health officials.
- **Customer Service:** Investigate and resolve citizen complaints regarding water quality, pressure, or construction-related utility issues.

Minimum Qualifications

- **Education:** Bachelor's Degree in Environmental Science, Chemistry, Biology, Civil Engineering, or a related field.

- **Experience:** 5–7 years of experience in water/wastewater utility operations or environmental compliance, with at least 3 years in a supervisory capacity.
- **Licensure:**
 - Must possess or be able to obtain **Georgia State Certification** in Water Treatment/Distribution or Wastewater Treatment/Collection.
 - Valid State of Georgia Driver’s License.

Physical Requirements & Work Environment

- **Field Work:** Significant time spent at construction sites and treatment facilities, requiring the ability to walk over rough terrain, climb ladders, and work in various weather conditions.
- **Availability:** Must be available for on-call rotation and emergency response outside of normal business hours.
