

## **Certification Board Exam Update**

**Starting May 1, 2018 Georgia Water & Wastewater Certification Exams will be administered year-round without specified testing windows.**

The Georgia Water/Wastewater Operator Certification Board is pleased to announce that the two-week exam windows for taking certification exams have been eliminated. Candidates can register for any open slot at an AMP/PSI test center. If a candidate does not pass the exam, that person must wait 60 days before retaking the same exam. AMP/PSI is constantly working to expand their test center network. Currently, there are testing centers in Decatur, Duluth (2), Marietta, Macon (2), Savannah, and Tifton.

To register for an exam, please go to [www.goamp.com](http://www.goamp.com) and click on **Candidates**.

The Board's website is <http://sos.ga.gov/index.php/licensing/plb/54>.
